PROFESSIONAL SUMMARY

AWS Cloud Engineer and Full Stack Developer with 4+ years of professional experience in AWS Cloud, Cloud Migration, Infrastructure Automation, DevOps practices, and Web Application Development. Hands-on expertise in AWS services including EC2, S3, RDS, IAM, VPC, CloudWatch, CloudTrail, Route 53, Auto Scaling, Load Balancers, and cloud monitoring solutions.

Strong experience in React.js, Node.js, PHP, CodeIgniter, MySQL, MongoDB, Docker, Kubernetes, Terraform, Jenkins, Git, and Linux. Proven ability to design, develop, deploy, and maintain scalable cloud-hosted applications, CRM systems, HRMS platforms, eCommerce solutions, and AWS infrastructure. Experienced in Agile development environments with a focus on automation, performance optimization, cloud security, and operational excellence.

TECHNICAL SKILLS

Cloud & AWS: AWS EC2, S3, RDS, IAM, VPC, Route 53, CloudFront, CloudWatch, CloudTrail, Auto Scaling Groups, Elastic Load Balancer (ELB), Cost Explorer

DevOps & Automation: Docker, Kubernetes, Terraform, Jenkins, Git, GitHub, GitLab, Linux, Infrastructure as Code (IaC)

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5

Backend Development: PHP, CodeIgniter 4, Node.js, Express.js, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Amazon RDS, Microsoft SQL Server

Methodologies: Agile, Scrum, SDLC, Monitoring, Troubleshooting, Cloud Migration, Infrastructure Management

PROFESSIONAL EXPERIENCE

Wardwiz

PHP Full Stack Developer | Jan 2026 – May 2026 | Pune

- Built a complete eCommerce platform from scratch using CodeIgniter 4, PHP, MySQL, Bootstrap 5, and JavaScript.
- Developed features including product catalog management, shopping cart, order tracking, payment workflow, inventory management, and reporting modules.
- Designed and implemented a complete HRMS and Payroll Management System with employee management, attendance tracking, leave management, and automated salary processing.
- Optimized MySQL database structures, relationships, and queries for improved performance and maintainability.
- Developed responsive admin dashboards with CRUD operations, reporting modules, and role-based access control.

Careermantra

Full Stack Developer & Cloud Engineer | Jul 2025 – Jan 2026 | Pune

- Led the migration of the CareerMantra website from shared hosting infrastructure to AWS Cloud.
- Configured and managed AWS EC2, S3, RDS, IAM, and CloudWatch services to improve scalability and reliability.
- Developed a custom CRM platform for lead management with role-based access for Admin, Sales, Marketing, and Campaign teams.
- Integrated Mailchimp and Neodove CRM systems to automate lead capture and email marketing workflows.
- Configured CloudWatch monitoring dashboards and S3 lifecycle policies to improve operational visibility and optimize storage costs.

Unisky Technologies

Software Engineer – Cloud & DevOps | May 2023 – Jun 2025 | Pune

- Participated in migration of enterprise eCommerce infrastructure from on-premises environments to AWS Cloud.
- Designed cloud architecture using AWS EC2, RDS, S3, IAM, and networking services.
- Automated infrastructure provisioning using Terraform and AWS CloudFormation templates.
- Configured Auto Scaling Groups and Elastic Load Balancers to improve application availability and scalability.
- Implemented IAM policies, Security Groups, VPC networking, and Network ACLs following cloud security best practices.
- Developed CloudWatch monitoring dashboards and alerts while supporting AWS cost optimization initiatives.
- Deployed production-grade MERN applications on AWS infrastructure with high availability architecture.
- Created reusable Terraform modules to standardize infrastructure deployment processes.
- Supported Jenkins CI/CD pipelines for application build and deployment automation.
- Implemented CloudWatch monitoring and operational dashboards for application health tracking.
- Automated database backup processes and routine maintenance activities using Linux-based automation scripts.

Great Software Laboratory

Software Engineer – Full Stack | May 2022 – May 2023 | Pune

- Developed a full-stack Doctor Appointment Booking System using React.js, Node.js, Express.js, and MongoDB.
- Built JWT-based authentication and authorization mechanisms to secure REST API endpoints.
- Designed MongoDB schemas and implemented APIs for appointment scheduling, patient management, and doctor availability.
- Participated in Agile/Scrum ceremonies including sprint planning, daily stand-ups, code reviews, and stakeholder demonstrations.
- Developed and maintained reusable React.js UI components.
- Improved frontend performance and user experience through optimized component architecture.
- Resolved application defects using GitLab workflows and browser developer tools.

9w Media

Junior Frontend Developer | Jan 2019 – May 2019 | Pune

- Developed responsive websites using HTML5, CSS3, Bootstrap, and JavaScript.
- Implemented user interface enhancements and content management features based on client requirements.
- Performed website maintenance, browser compatibility testing, and UI updates.

KEY PROJECTS

CareerMantra CRM + AWS Migration

Technologies: PHP, MySQL, AWS EC2, S3, RDS, CloudWatch

Developed a custom CRM solution for student lead management and successfully migrated production website infrastructure from shared hosting to AWS Cloud.

HRMS & Payroll Management System

Technologies: PHP, CodeIgniter 4, MySQL

Developed attendance, leave management, employee records, and payroll automation modules.

eCommerce Platform

Technologies: PHP, CodeIgniter 4, MySQL, Bootstrap 5

Built a complete eCommerce application including product management, cart, checkout, inventory tracking, and reporting.

Doctor Appointment Booking System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT

Developed a secure healthcare appointment management platform with role-based access control.

AWS Cloud Migration & Infrastructure Automation

Technologies: AWS, Terraform, CloudFormation, CloudWatch

Automated infrastructure provisioning and supported cloud migration initiatives using Infrastructure as Code practices.

CERTIFICATIONS

- AWS Academy Graduate – AWS Academy Cloud Foundations
- Microsoft Technology Associate (MTA) – SQL Database Fundamentals
- UI Development Certification

EDUCATION

Master of Computer Application (MCA) | 2022

Institute of Industrial Computer Management and Research

Bachelor of Computer Application (BCA) | 2018

Indira College of Commerce and Science
